

DRAFT LIFE PROJECT

Auteur:	Samuel Carrupt
Email:	samuel.carrupt@heg.ge.ch
Team:	HEG Team

NB. this list is not definitive and may be updated regularly

Creation date:	24/08/05	version 0
Modifications:	06/09/05	version 1

Legend

Code colors:

Chosen application	
Alternative	
Not maintained Ubuntu	
Must be tested	
Not yet decided	
Still looking for	

Code areas:

All	ALL
Tele centers	TEL
Health centers	HEA
High schools	HIS
Teachers	TEA
Tertiary school	ITT
Proposition for a software	Proposition
Where to install	

Application draft

Applic / default Ubuntu			ALL	TEL	HEA	HIS	TEA	ITT	Proposition
Office automation									
Agenda	Evolution								
Pdf reader	xPDF	Evince							
		Gpdf							
		Abode Reader							
Pdf creator	OpenOffice suite	Any HTML editor							
	xPDF	GhostScript							
Postscript reader		Evince							
		GhostScript							
Office Suite	OpenOffice	GnomeOffice							
		Koffice							
Spreadsheet	OO Calc								
	GnuMeric								
Word processor	OO Writer	AbiWord							
Presentation	OO Impress								
PAO		Scribus							
Image viewer	gThumb								
	Eye Of Gnome								
Accountancy		GNUCash							
		Grisbi							
Internet									
Browser	Firefox	Epiphany							
FTP client	Nautilus	gFTP-gtk							
Mail client	Evolution	Thunderbird							
Internet messaging	Gaim								
IRC	Gaim	Xchat							
ViOlP	GnomeMeeting	Skype							
Videomeeting	GnomeMeeting								
P2P	GnomeBittorent								
Download manager	Firefox	d4x							
Telnet	Telnet								
Développement web									
HTML editor		Quanta (kde)							
		Bluefish							
		Nvu							
		Any text editor							
HTML galerie		Album (cl)							
Web server		XAMPP							
		LAMP							
Collaborative publishing system		Spip							
Desktop									
Desktop		Gnome							
		Kde							
		Xfce							

Application draft

Applic / default Ubuntu			ALL	TEL	HEA	HIS	TEA	ITT	Proposition
Graphics									
Advanced image editor	The Gimp								
Simple image editor		KolourPaint (kde)							
		gPaint							
		TuxPaint							
Video editor	Kino	CinePaint							
Vector Graphic Editor	OpenOffice Draw								
	Inkscape								
Diagram editor	Dia-gnome	Kivio							
Electrical CAD system		Electric							
3D modeller/render		Blender							
CAD system		Qcad							
Utilities									
Calculator	gCalctool								
Text editor	gedit	gxedit							
	Emacs21	LeafPad							
Application finder		Xfce4							
File explorer	Nautilus								
Archive manager	File-Roller								
CD Burner	Nautilus CD burner	K3B							
		GnomeBaker							
System updates	Synaptic								
	apt-get								
Desktop	Gnome	Xfce							
		Kde							
Firewall	iptables	Firestart							
Backup	BackupPC	Amanda							
Terminal	gnome-Terminal								
	xTerm	xTerminal							
Scanner	Xsane								
Fax		Gfax							
Partition editor		gParted							
Making image of disks		Partimage							
Mirroring over network		UDP Cast							
Cloning PC Hardware		* Ghost for Unix							
Table Unicode		Character Map							
Online dictionary		Dictionary							
Project manager	Planner	* Ganttproject							
Menu editor		Gnome Menu Editor							
		Smeg							

Application draft

Applic / default Ubuntu			ALL	TEL	HEA	HIS	TEA	ITT	Proposition
Multimedia									
CD player		CD Player							
Music player	Rhythmbox	Beep Media							
	Totem	Zinf							
	XMMS								
Music extractor	Soundjuicer								
Micro recorder		Sound Recorder							
Volume control		Volume control							
Video player	Totem	Mplayer							
DVD player		Mplayer							
Programming									
IDE Java	Jikes	* Eclipse							
		* NetBeans							
Java Runtime Environment		J2SE							
IDE multi-language		Anjuta							
GUI creator	Glade 2								
Python	Any text editor	IDLE							
Perl	Any text editor								
PHP	Any text editor								
	Any HTML editor								
Jeux									
	Gnome-games								
Database									
Database	MySql								
	PostgreSQL								
DataBase Designer		* DBDesigner 4							
Data		Gnome DB							
Emulation									
Windows emulator		Wine HQ							
		Bochs							
DOS emulator		DosEmu							
Server									
Server									
Printer server		LPRng							
		LPR							
		CUPS							
Internet passerelle (NAT-PAT)		Natif Ubuntu							
File server		FTP							
		NFS							
DHCP server		DNS masque							
DNS server		DNS masque							
Cache manager		Apache							
		Squid							

Specifics need

		ALL	TEL	HEA	HIS	TEA	ITT	Proposition
Tele centers TEL								
Telecentres management	? See list annexed							
Administrative management	OO, GnuCash							
Cache manager	See cache server							
DataBase	XAMPP							
Post activity	OpenOffice							
Browser	Firefox Kiosk style							
Health centers HEA								
Patient record	? OpenOffice, php							
Material management	? OpenOffice, php							
Pharmaceutical products management	? OpenOffice, php							
Statistical tool	* SalStat							
DataBase	XAMPP							
Data collection for epidemiology	* epiinfo							
	* Rproject							
High schools HIS								
Mail management	? Dia-gnome							
drawing capacity-basic charts	XAMPP							
DataBase	Kpaint, Gimp							
Draw	Gimp, CinePaint							
Photo editing	? wine, DosEmu							
Matériel pédagogique	? Gcompris (2-10)							
Non Linux support	kdeEdu (3-18)							
Outils pédagogiques	TuxType							
Edutainment								
Teachers TEA								
Ubuntu technical information	? documentation							
Tools to collect info & distribute them	? OO, php							
Apprentissage utilis. PC	? wine, DosEmu							
Support non Linux	XAMPP							
Base de données	? tutorial							
Aide recherche documents								
Ecole polytechnique ITT								
All for config and maintenance	? documentation							
technical information	? documentation							
tools to collect needed info and distribute it	? OO, php							
Up-to date info libraries for research	? Synaptic, apt							
Non Linux support	wine, DosEmu
